Fastmarkets Dashboard Release Notes

5th November 2019

Version 1.4.819

What's New?

Bug Fixes

Release of updated Dashboard installer to resolve issues experienced by users with a slow internet connection.

New Features

The key feature in this release is the ability to perform currency and unit of measure conversions to enable comparison of prices on a like for like basis. This is possible from the following widgets:

- Single Price Tile
- Multi Price Table
- Price Chart
- Historic Price Table

To access conversions click on the Widget Actions menu in the top right corner of each widget and select Convert currency/unit. All prices displayed in the widget will be converted, if there is no available conversion the menu option will appear "grayed out". Price and news alert delivery by email.

Another improvement is the addition of time zone for news headlines. All news headlines have the time zone of UTC which is now displayed next to the date and time.

Breaking Changes

There are no breaking changes with this release.
